ANTI CORROSION GREASE- COGEL F 200

COGEL F 200 has been developed for application to ACSR (Aluminum Conductor Steel Reinforced) for protection from corrosion. F 200 is non melting product which has no phase & structural changes in broad temp. ranges. It could be used with normal pumping equipment at room temperature with out melting & reduce production time.

SALIENT FEATURES OF COGEL – F 200 :

- Non hazardous & non toxic
- Good structural stability in broad temperature.
- Excellent anti corrosion & lubricant properties
- Good compatibility with ACSR & OPGW components .

COMPATIBILITY:

COGEL- F 200 is compatible with most commonly used polymers, ACSR & OPGW components. Tests on all commonly used materials show no reaction but it is recommended that compatibility tests are made with all materials likely to come into contact with the gel.

HEALTH & SAFETY:

COGEL F 200 is quickly and easily removable by wiping. It is free from unpleasant odor and has no toxic and dermatic hazards.
